## Twin Loft

双子座阁楼

*A single-cell organism divided into 2 volumes structurally identical and internally "mirrored". This is the project for the restructuring and Interiors of twin lofts designed by Federico Delrosso in the post-industrial Milan: the work turned on a former factory, once an industrial suburb, today a residential district.*

*"They have the same design as the internal spaces, because they were created by dividing a single sleeve-shaped space lengthwise. But starting from the personal data of the residents (one is Delrosso's own studio-home, the other is the private home of Alessandro Sartori, creative director of Zegna's Z line) I devised a project which developed the architectural details, the furnishings... the experience of the home in an individual way, in short by using materials and colours like the letters of an alphabet: to write similar or opposed phrases, but always with a coherent grammar."*

---

**Location:** Milano, Italy  
**Design company:** Federico Delrosso Architects  
**Photographer:** Matteo Piazza

将一个空间一分为二，隔成两个内部结构相同的“镜像”——双子座阁楼。该项目是对后工业时代米兰设计师费德里克·德尔罗梭设计的“双子座阁楼”的重新布局与室内装饰：将一个位于工业郊区的旧厂房变成今天的这个住宅小区。

“它们具有相同的内部空间设计，因为它们是由一个独立的筒形空间纵向隔开而形成的。然而，根据住户的实际情况（其中一个Delrosso自己的工作室兼住宅，另一个是杰尼亚公司Z系列的创意总监亚历山德罗·萨托利的私人住宅），我设计了这个项目，发掘建筑的细节、配套的家具……基于个人对‘家’的独特体验，简而言之，利用类似于字母表中字母的材料和颜色：写上意思类似的或相反的短语，但这些短语的语法却是连贯一致的。”

TWINS LOFT - MILANO

GROUND FLOOR

- 1 entrance
- 2 kitchen
- 3 terrace
